

Waterproof Electrical Distribution Box

This waterproof distribution box is designed for electrical circuit protection and distribution in harsh environments. It provides a secure enclosure for internal components, protecting them from water, dust, and other environmental factors, and is suitable for both indoor and outdoor applications.

Product Overview

Robust Protection for Demanding Environments

This waterproof electrical distribution box is engineered to provide superior protection against dust, water, and corrosion in challenging industrial settings. Designed for safety and reliability, the enclosure features a durable, impact-resistant construction suitable for both indoor and outdoor installations. With its transparent inspection cover and secure locking mechanism, it ensures both easy maintenance and protection against unauthorized access.

Standards & Compliance

Certifications

CE • IP65 • IP67

Executive Standards

IEC 60529, EN 60529, IEC 60670-1, IEC 60670-24, EN 60309

Technical Features

Protection Ratings

- Waterproof
- Dustproof
- Corrosion-proof

Design Specifications

- Transparent cover for component inspection
- Secure locking mechanism
- Impact-resistant material
- Suitable for indoor and outdoor use
