

Waterproof Fluorescent Lamp

This waterproof lamp features a durable enclosure designed to protect against moisture and dust. The lamp houses two fluorescent tubes, providing bright and efficient illumination.

Product Overview

Industrial-Grade Waterproof Illumination

This waterproof fluorescent lamp is engineered to provide reliable and bright illumination in challenging environments where moisture and dust are present. Featuring a robust, durable enclosure, it offers superior protection to ensure long-term performance and reliability. Its efficient design utilizes dual fluorescent tubes, making it an ideal lighting solution for industrial settings, garages, and demanding outdoor applications.

Technical Specifications

Light Source	Fluorescent Tubes
Number of Tubes	2
Key Features	Waterproof, Dust-resistant, High Light Transmission, Robust Construction

Applications

Suitable Environments

- Industrial Settings
- Garages
- Damp Environments
- Outdoor Areas
