Product Overview

Professional Grade Tri-Proof Lighting

The Waterproof LED Tri-Proof Light is engineered for environments requiring superior protection against dust, water, and corrosion. Utilizing a high-quality ABS stripe lampshade, it delivers soft, uniform, and non-dazzling illumination suitable for various industrial and commercial settings. Its durable, flame-retardant construction ensures long-term safety and reliable performance in demanding conditions.

Technical Specifications

Installation Options

- Hoisted (Suspension line)
- Ceiling mounted

Housing Material

Flame-retardant ABS

Key Features

Waterproof, Dustproof, Corrosion Resistant, Flame-retardant

Design and Safety

Safety Components

- Flame-retardant lamp foot
- High-sealing rubber plugs

Light Quality

Uniform Light • Anti-dazzle • High Transmittance
