

Waterproof S-VHS Video and Audio Cable

This waterproof S-VHS video and audio cable transmits high-quality video signals. Its durable construction and reliable connectors ensure optimal performance in wet environments.

Product Overview

Professional S-VHS Connectivity

This waterproof S-VHS video and audio cable is engineered for reliable signal transmission in challenging environments. Designed with high-quality components, it ensures consistent performance even where moisture exposure is a concern. Ideal for CCTV surveillance and professional audio-video installations requiring durable, weather-resistant connectivity.
