

Welding and Cutting Torch Kit

This welding and cutting torch kit is designed for a variety of industrial applications. It includes a heavy-duty torch handle, multiple cutting nozzles, welding tips, and a rosebud heating tip.

Product Overview

Versatile Industrial Torch Kit

This heavy-duty welding and cutting torch kit is engineered for a wide range of industrial applications, including metal fabrication, automotive repair, and general maintenance. Constructed from durable brass, the system offers precise flame control and reliable performance across various tasks. The comprehensive kit supports cutting, welding, brazing, soldering, and heating, making it an essential tool for professional workshops.

Technical Specifications

Applications

Cutting • Welding • Brazing • Soldering • Heating

Material

Durable Brass

Compatible Fuel Gases

Acetylene, Propane, Natural Gas

Kit Contents

Included Components

- Heavy-duty torch handle
- Multiple cutting nozzles (various sizes)
- Welding tips
- Rosebud heating tip

Performance

Key Performance Metrics

1 Heavy-Duty

Torch Handle

1 Rosebud

Heating Tip
