

Wet and Dry Vacuum Cleaner with Stainless Steel Tank

This wet and dry vacuum cleaner is designed for both household and industrial use. Its powerful motor provides strong suction for effectively cleaning both dry debris and liquid spills.

Overview

Versatile Cleaning Performance

The DW30L is a versatile wet and dry vacuum cleaner engineered for both household and industrial environments. It features a powerful motor designed for robust suction, allowing it to effectively manage both dry debris and liquid spills with ease. The durable stainless steel tank ensures long-lasting corrosion resistance, while the included HEPA filter contributes to improved air quality during operation.
