

Wheel Loader for Mining

This heavy-duty wheel loader is designed for mining and construction applications. It features a robust chassis, powerful engine, and high-capacity bucket for efficient material handling.

Overview

Heavy-Duty Mining Performance

This heavy-duty wheel loader is engineered specifically for demanding mining and construction environments. It features a robust chassis, a powerful engine, and a high-capacity bucket designed to maximize material handling efficiency. With a focus on productivity and safety, the unit includes a comfortable operator cabin and advanced control systems, making it an ideal choice for loading, hauling, and stockpiling bulk materials.

Key Features

Operational Highlights

- Robust chassis design
- High-capacity bucket
- Advanced control systems
- Ergonomic operator cabin

Suitable Applications

Mining, Construction, Material Handling, Stockpiling

Technical Specifications

Model Identifier

936
