

White Nylon Cable Ties

White nylon cable ties, also known as zip ties, are used for bundling and securing items. They feature a self-locking head for easy installation and are constructed from durable nylon.

Overview

Professional Grade Nylon Cable Ties

These white soft plastic nylon cable ties are professional-grade fasteners designed for securing and retaining cables and objects of various shapes and sizes. Featuring a self-locking head for quick installation, they offer a reliable solution for bundling tasks in industrial and commercial environments. Constructed from durable nylon, they provide excellent resistance to abrasion and high tensile strength.
