Product Overview

Smart Lighting Control

The Wi-Fi Smart Light Socket upgrades standard lighting fixtures to intelligent, remotely controlled systems. Designed for seamless home automation, it supports voice commands through major virtual assistants and allows for scheduling via dedicated mobile applications. Its compact, indoor-rated construction makes it an ideal solution for energy-efficient lighting management in residential and commercial environments.

Technical Specifications

Maximum Load

60 W

Max Power Capacity

Rated Voltage 230 V

Rated Frequency 50 Hz

Connectivity & Integration

Wireless Standard Wi-Fi 2.4GHz b/g/n

Smart Home Integration Amazon Alexa, Google Assistant, Smart Life, Tuya Smart

Certifications & Compliance

Compliance

CE • RED • ROHS

General Information

Ingress Protection	IP20 (Indoor Use Only)
Model Number	BH0312F-wifi
