

Winch Hook Rubber Stopper

This durable rubber stopper cushions the winch hook to prevent damage from impacts. Its design ensures easy installation and compatibility with most standard winch hooks.

Product Overview

Winch Hook Protection

This solid rubber line stopper is designed to prevent the winch hook from pulling all the way through your fairlead, protecting your equipment. It effectively reduces trail rattle caused by the hook during off-road travel. The durable design is compatible with both steel and synthetic winch cables.
