

Wired Dynamic Microphone for Vocals and Karaoke

This wired microphone is designed for vocal performance and karaoke. It features a dynamic capsule to clearly capture sound.

Product Overview

Professional Vocal Performance

The PT-776 is a professional-grade wired dynamic microphone designed specifically for vocal clarity and high-performance karaoke applications. Featuring a robust metal body and a resilient ball grill, this microphone is engineered for both stage durability and reliable sound reproduction. Its tailored frequency response and cardioid polar pattern work together to ensure clear audio while minimizing unwanted ambient noise and feedback.
