

Wireless Optical Mouse

This is a wireless optical mouse designed for comfortable and precise navigation. The mouse connects wirelessly to a computer via a small USB receiver and is powered by batteries for long-lasting performance.

Overview

Ergonomic Wireless Navigation

This wireless optical mouse is designed for comfortable and precise navigation in any workspace. Featuring an ergonomic, ambidextrous shape, it accommodates both right-handed and left-handed users seamlessly. The reliable optical sensor ensures accurate tracking across a variety of surfaces, making it a versatile tool for daily professional tasks.
