

Wireless Optical Mouse with USB Receiver

This wireless optical mouse is designed for comfortable and efficient computer navigation. It features a classic ergonomic design with a scroll wheel and optical tracking for precise cursor control on various surfaces.

Product Overview

Ergonomic Performance

This wireless optical mouse is engineered for efficient and comfortable computer navigation in any professional or home office environment. Featuring an ambidextrous, ergonomic design, it ensures ease of use for both right and left-handed individuals while providing precise cursor control via advanced optical tracking. The device connects seamlessly via a USB receiver, eliminating cable clutter and offering reliable freedom of movement.
