

Wood Veneer Interior Door with Diamond Panels

This interior door is constructed with a wood veneer and finished in brown. It features three square panels, each decorated with a diamond-shaped design.

Product Overview

Sophisticated Craftsmanship

This premium wood veneer interior door combines elegant aesthetics with durable construction. Featuring unique diamond panel accents, it provides a sophisticated architectural element suitable for high-end residential or commercial spaces. The warm wood finish is perfectly complemented by the included metallic hardware for a polished, ready-to-install appearance.
