

Woodworking Firmer Chisel

This firmer chisel is designed for woodworking tasks requiring precision and durability. The blade is crafted from high-quality steel and the ergonomic handle ensures a comfortable and secure grip during use.

Product Overview

Professional Woodworking Firmer Chisel

This firmer chisel is designed for precision woodworking tasks, offering a robust solution for shaping wood, creating joints, and refining edges. Engineered with a durable 65 Mn steel blade, it ensures long-lasting performance and consistent sharpness. The tool features an ergonomic handle designed to provide a comfortable and secure grip, minimizing fatigue during extended professional use.

Technical Specifications

Blade Width (Imperial)	1 inch
Blade Width (Metric)	25 mm
Blade Material	65 Mn Steel

Usage & Applications

Primary Applications	Wood Shaping, Joint Creation, Edge Refining, Woodworking
----------------------	--

Features

Key Design Features

- Ergonomic handle for secure grip
- High-durability steel composition
- Precision-ground edge
