Product Overview

Professional Woodworking Lathe

This wood lathe is a precision machine engineered for shaping wood with high accuracy and efficiency. It features a robust construction for stability during operation and is equipped with a versatile motor for various turning tasks. Ideal for both professional workshops and advanced woodworking projects, it provides reliable performance for processing complex profiles.

Technical Specifications

Motor Power

550 W

Rated Power

Workpiece Dimensions

Dimension Type	Value
Max Workpiece Length	1000 mm
Turning Diameter	350 mm

Performance

Speed Settings	4 gears
