

Woodworking Sliding Table Saw for Panel Cutting

This woodworking sliding table saw is designed for precision cutting of wood panels and other materials. It features a robust construction with a sliding table for smooth and accurate material feeding.

Product Overview

Precision Panel Cutting Solution

This woodworking sliding table panel saw is engineered for high-accuracy cutting of wood panels and various materials. Featuring a robust chassis and a smooth-gliding table system, it ensures precision and stability throughout the feeding process. It integrates a powerful motor with adjustable blade depth and angle settings to meet diverse professional woodworking requirements.

Technical Specifications

Key Performance Indicators

100 %

Cutting Accuracy

Integrated Features

Sliding Table, Adjustable Blade, Dust Collection System, Emergency Stop

Safety & Compliance

Safety Equipment

- Blade Guard
- Emergency Stop Switch
- Integrated Dust Collection
