

# Woven Polyester-Nylon Microfiber Cleanroom Wipes

These woven polyester-nylon microfiber wipes are designed for critical environment cleaning. They offer excellent absorbency, low linting, and abrasion resistance.

## ADDITIONAL IMAGES

## Product Overview

### Professional Cleanroom Wiping Solutions

These woven microfiber wipes are engineered from a high-performance blend of 70% polyester and 30% nylon, combining lipophilic and hydrophilic properties for superior cleaning efficiency. Designed for critical environments, the wipes feature laser or ultrasonic sealed edges to minimize lint generation. They are ideal for scratch-sensitive surfaces and delicate component cleaning in ISO 4 controlled settings.

## Material & Construction

Material Composition	70% Polyester, 30% Nylon
Edge Treatment	Laser or ultrasonic sealed edges

## Performance Metrics

### Cleanroom Compatibility

Class 100 • ISO 4 • ISO 6

### Key Attributes

- High water absorbency
- Low-elasticity
- Rub-resistance
- Ultra-low linting
- Scratch-free polishing

## Packaging & Sizes

### Available Sizes and Packaging

Size	Pieces/Bag	Bags/Carton
9"x9"	100	20
6"x6"	100	20
4"x4"	400	40

## Certifications

Compliance	ISO 9001, ISO 14001, SGS Compliant
