

WSME Welding Machine

This welding machine utilizes WSME technology for enhanced welding performance. It is available in two models: WSME-315/500 and WSME-315/500 (Digital).

Product Overview

High-Performance Welding Solution

The WSME welding machine is a versatile, professional-grade tool engineered for precision welding applications. Featuring advanced technology, it offers reliable performance for demanding industrial tasks. The unit is available in both standard and digital interface configurations to suit specific operational requirements.

Technical Specifications

Model Variants

- WSME-315/500 (Standard)
- WSME-315/500 (Digital)

Series	WSME
Current Capacity	315A, 500A
