

YAMAHA YV100XG SMT Pulley

This pulley is designed for use in YAMAHA YV100XG SMT equipment. It ensures optimal performance in pick-and-place operations.

Product Overview

Professional SMT Equipment Component

This high-precision pulley component is engineered specifically for YV100XG surface mount technology systems. It is designed to meet exact performance standards, ensuring operational reliability and consistent alignment within head assembly mechanisms. As an essential spare part, it maintains the integrity and efficiency of your automated assembly lines.

Technical Specifications

Part Number	KGB-M7167-00X
Component Type	Pulley
Compatible Model	YV100XG

Head Assembly Components

Head Assembly Parts List

Part Reference	Component Description
KV8-M7101-00X	HOUSING HEAD 1
KV8-M7103-00X	PISTON PLUG 4
KV8-M7104-00X	PISTON 8
KG7-M7137-A0X	LEAF SPRING 8
KV8-M7154-00X	SPG.RETURN 4
