

0.5 HP Oil-Free Air Compressor

This 0.5 HP oil-free air compressor delivers compressed air for a variety of applications. Its design promotes clean air delivery and reduces maintenance needs with user-friendly controls.

Product Overview

Clean, Reliable Compressed Air

This 0.5 HP oil-free air compressor is engineered for versatility and reliability in professional environments. Its oil-free design ensures cleaner air output while significantly reducing routine maintenance needs. Designed with portability in mind, it features a robust roll cage and compact form factor, making it an ideal choice for mobile applications or workshops where space is at a premium.

Technical Specifications

Power Rating

0.5 HP

Motor Power

Key Design Features	Oil-Free, Portable, Roll Cage Protected, Dual Pressure Gauges
Maintenance Level	Low-maintenance oil-free operation

Controls and Connectivity

Control Interface

- Adjustable pressure regulator knob
- Dual pressure gauges (tank and output)
- Quick-connect air outlet
- Condensation drain valve

Construction Details

Silver-finished tank • Black motor housing • Protective roll cage
