

0.52L Grind and Brew Coffee Maker

This 0.52L grind and brew coffee maker is a compact appliance for brewing coffee from beans or pre-ground coffee. It features an integrated grinder and adjustable cup settings, brewing 2-4 cups at a time.

Overview

Fresh Coffee at Home

This compact 0.52L Grind and Brew Coffee Maker is designed for efficiency and flavor, allowing you to grind whole beans or use pre-ground coffee. With a versatile brewing capacity of up to 4 cups, it provides flexible options for single servings or small carafes. Its user-friendly interface and integrated heating plate ensure a fresh, hot cup of coffee in just 3-5 minutes.
