

0.6L Grind and Brew Coffee Maker

This 0.6L coffee maker grinds and brews fresh coffee from beans or pre-ground powder. It features a low-noise grinding mechanism and aroma function.

Overview

Compact Grind and Brew Solution

This 0.6L coffee maker offers the ultimate convenience by supporting both whole coffee beans and ground powder. Designed for modern kitchens, it features a specialized low-noise grinding mechanism and an aroma function to customize your brew's strength. Its compact, elegant design combined with intuitive touch controls makes it an ideal choice for professional B2B environments and home use alike.
