

0.9kW Single-Phase Explosion-Proof Electric Motor

This single-phase explosion-proof electric motor is designed for use in environments with flammable gases or vapors. Its robust construction ensures reliable and safe motor operation in various industrial applications.

Product Overview

Industrial Explosion-Proof Motor

This single-phase explosion-proof electric motor is engineered for safe operation in hazardous environments where flammable gases or vapors may be present. With a power rating of 0.9kW, it features robust construction using 100% copper wiring to ensure high reliability and performance. It is an ideal choice for critical industrial applications in sectors such as chemical processing, oil refineries, and mining.

Technical Specifications

Power Output

0.9 kW

Power Rating

Model	YLB90L3-4
Winding Material	100% Copper

Compliance and Standards

Safety Compliance

Explosion-Proof • Hazardous Environment Rated

Certifications	CCC, CE, ISO 9001:2015, GB/T 19001-2006
