

1-1.8 Ton Compact Forklift

This compact forklift is designed for efficient material handling in confined spaces. It features a robust chassis, ergonomic operator compartment, and reliable hydraulic system.

Product Overview

Compact Material Handling Solution

This 1-1.8 ton compact forklift is engineered for high-efficiency material handling within confined industrial environments. It features a robust chassis paired with a reliable hydraulic system to ensure consistent performance in warehousing, manufacturing, and logistics operations. The ergonomic operator compartment enhances comfort, while integrated safety features like an overhead guard and warning lights prioritize workplace security.

Performance Specifications

Maximum Lifting Capacity

1.8 Tons

Max Capacity

Suitable Applications

Warehousing, Manufacturing, Logistics, Indoor Use, Outdoor Use

Design and Safety

Safety Equipment

- Overhead guard
- Warning lights

Operator Ergonomics

Yes
