

# 1-Gang Duplex Weatherproof Electrical Outlet Cover

This 1-gang duplex weatherproof cover provides protection for electrical outlets in outdoor or damp locations. The cover features a self-closing lid and a gasket to create a watertight seal, complying with industry standards for weatherproof enclosures.

## Product Overview

### Rugged Weatherproof Protection

This 1-gang duplex weatherproof electrical outlet cover is engineered to provide robust protection for outdoor and damp location electrical connections. Constructed from high-quality, impact-resistant polycarbonate, it effectively shields outlets from rain, snow, ice, moisture, and debris. Designed for both vertical and horizontal mounting, this durable cover features a self-closing lid and a factory-installed gasket to ensure a secure, long-lasting seal in abusive environments.

## Technical Specifications

### Resistance Features

Impact Resistant • UV Resistant • Corrosion Resistant • Non-conductive

Material	GE Polycarbonate (PC)
Mounting Options	Vertical, Horizontal

## Compliance & Safety

### Location Rating

- Wet locations (cover closed)
- Damp locations (cover open or closed)

Certifications	ETL Listed
----------------	------------

## Installation & Hardware

Hardware Material	Stainless steel (screws and spring leaf)
Gasket	Factory-installed

## Design Features

Lid Mechanism	Self-closing lift lid
