

# 1 HP Vortex Clean Water Pump

This vortex clean water pump is designed for efficient water transfer and circulation. The 1hp water pump is suitable for various applications, including domestic water supply, irrigation, and industrial processes.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Water Transfer

This vortex clean water pump is engineered for efficient water transfer and circulation in domestic and industrial environments. Featuring a robust, corrosion-resistant construction, it is designed for reliable long-term performance in diverse operating conditions. The vortex impeller design allows for effective handling of clean water, making it a versatile solution for irrigation and water pressure applications.

## Technical Specifications

### Power Rating

**1 HP**

Horsepower

**0.37 kW**

Power Output

### Electrical Requirements

Parameter	Value
Voltage	220 V
Power Source	Electric

### Mechanical Structure

Single-stage, Vortex Impeller, High Pressure

## Logistics and Compliance

### Quality Certifications

CE

### Supply and Packaging

- Capacity: 5000 pieces per month
- Packaging: Strong carton packing (export standard)
- Port: Ningbo
