

1-Inch Full Bore Brass Ball Valve

This is a brass ball valve with a full bore. It measures 1"X1", DN 25, with a length of 81.5 and height of 52.

Overview

High-Performance Brass Ball Valve

This 1-inch full bore brass ball valve is engineered for reliable flow control in industrial and commercial piping systems. Featuring a durable brass construction and a full-bore design, it ensures minimal pressure drop and optimal flow efficiency. With a pressure rating of PN 25, this valve is built to handle demanding operational environments while maintaining a compact profile.

Technical Specifications

Nominal Diameter (DN)	25 mm
Pressure Rating	PN 25
Connection Type	Female/Male (F/M)
Valve Size	1" x 1"

Dimensions

Physical Dimensions

81.5 mm

Length

52 mm

Height

Logistics

Packaging Details	60 pcs/ctn
