

1-Liter Electric Deep Fryer with Temperature Control

This electric deep fryer has a 1-liter capacity and adjustable temperature control. It features a non-stick coated bowl and a multi-function handle with a lifting system.

Overview

Compact 1-Liter Deep Fryer

This compact 1-liter electric deep fryer is designed for efficient, small-batch frying in professional or home kitchens. Featuring a durable non-stick coated bowl and a precise variable temperature control system, it ensures consistent results for various food types. The integrated multi-function handle and basket lifting system allow for safe operation even while the lid is closed.
