Product Overview

Heavy-Duty Lifting Solution

This 1-ton capacity chain hoist is a robust lifting tool engineered for demanding industrial, construction, and automotive environments. It features a reliable chain and hook system built with high-strength alloy steel components, ensuring safety and durability during heavy load operations. The smooth-operating gear mechanism allows for efficient lifting and lowering, making it an essential asset for professional material handling tasks.

Technical Specifications

Load Capacity

1 Ton
Capacity

Construction Materials

High-strength alloy steel, Industrial-grade chain

Model Type

HSZ-A Type

Applications & Usage

Recommended Applications

- Industrial manufacturing
- Construction sites
- Automotive workshops
- General material handling
