

10-100 kVA Super Silent Diesel Generator

This 10-100 kVA super silent diesel generator provides reliable power for various applications. Its super silent enclosure minimizes noise pollution, making it suitable for noise-sensitive environments.

Product Overview

Ultra Super Silent Power Solutions

These ultra-super silent diesel generators provide a power range from 10 to 100 kVA, engineered to meet strict noise regulations in urban, residential, and noise-sensitive commercial environments. Featuring robust soundproof enclosures and advanced intake/exhaust noise reduction, they ensure reliable performance while minimizing environmental impact. Highly adaptable, these units support various customized configurations including weather-proof canopies and high-capacity base fuel tanks for extended runtime.

Technical Specifications

Noise Levels at 1 Meter

Power Range (kVA)	Minimum Noise (dB(A))
< 15	60
15 - 30	62
30 - 50	65

Operating Voltage

- 50Hz: 380V-440V
- 60Hz: 190V-240V, 380V-480V

Power Output Range

10-100 kVA

Key Features

Standard Features

Ultra Super Silent, Soundproof Canopy, Automatic Voltage Regulation, Integrated Muffler System, Overload Protection

Customization Options

CUSTOMIZED SOLUTIONS

Available Customizations

- Canopy design (space, transit, weather-proofing)
- Base frame with high-capacity fuel tank (up to 500 hrs)
- Forklift holes and lifting attachments
- Customized air inlet/outlet passages
- Remote monitoring and operating systems

Compliance

Quality Standards

ISO 9001 • CE Compliant
