

10-Gauge Polycotton Liner Gloves with Latex Palm and Crinkle Finish

These 10-gauge gloves feature a polycotton liner and a latex palm coating with a crinkle finish. They provide a balance of comfort, dexterity, and grip for various general applications.

Product Overview

Reliable Grip and Comfort

These 10-gauge polycotton liner gloves are designed for cost-effective performance in a variety of general handling tasks. The breathable liner ensures comfort during extended wear, while the latex palm coating provides essential abrasion resistance. Featuring a specialized crinkle finish, these gloves offer superior grip in both wet and oily conditions, making them a versatile choice for professional environments.

Technical Specifications
