

10-Inch Carbon Steel Adjustable Wrench with TPR Grip

This 10-inch adjustable wrench is made of carbon steel with precision-machined parts for smooth operation. It features a soft TPR grip for comfortable and secure handling.

Product Overview

Professional Grade Adjustable Wrench

This 10-inch adjustable wrench is engineered for durability and precision, featuring a drop-forged carbon steel construction that has been heat-treated for superior strength. The tool is fully polished and chrome-coated, providing excellent resistance to wear and corrosion in demanding work environments. Designed with user comfort in mind, it includes a soft, bi-color TPR grip handle to ensure secure handling during extended use.
