

10-Inch Ceramic Water Filter Candle

This 10-inch candle cartridge water filter utilizes diatomaceous ceramic material. It undergoes high-temperature treatment to provide effective filtration.

Product Overview

High-Performance Ceramic Filtration

This 10-inch ceramic water filter candle utilizes diatomaceous ceramic material treated at super-high temperatures to ensure durable and reliable performance. It is designed to effectively remove dust, rust, cysts, cryptosporidium, and harmful bacteria from your water supply. Beyond filtration, this filter helps activate water molecules and supports the reduction of acidic levels in the body, promoting better overall health.

Technical Specifications

Filter Length	10 inch
Diameter	53 mm
Material	Diatomaceous ceramic

Filtration Capabilities

Contaminants Removed	Dust, Rust, Cysts, Cryptosporidium, Guardian, Particles, Sediment, Bacteria
----------------------	---

Maintenance & Care

Cleaning Instructions

- Wash with a solution of peroxide hydrate
- Use sandpaper to brush the surface until white

Health Benefits

Key Health Benefits

1 Yes

Water Molecule Activation

1 Yes

Toxin Elimination

1 Yes

Acidic Level Reduction
