Product Overview

High-Performance Agricultural Rubber Roller

This 10-inch iron drum rubber roller is engineered for demanding agricultural machinery applications, combining structural integrity with high-performance materials. Designed for durability and longevity, the roller features a robust iron drum core paired with a resilient rubber surface to ensure optimal grip and efficient operation. Available in multiple hardness levels and color options, it provides a reliable solution for various agricultural rolling tasks.

Technical Specifications

Available Colors

White • Brown • Orange

Custom Specifications

We can accommodate custom requirements for rubber rollers and related products. Please provide detailed information, technical drawings, or samples to facilitate the production of customized components.

Model	LGL254
Outer Diameter	255 mm
Length	254 mm
Available Hardness	90°, 92°, 95°
Type	Wheel Type
