Product Overview

Versatile Portable Multimedia System

This portable multimedia speaker system combines high-quality audio performance with an integrated 14-inch LED touchscreen display. Designed for versatility, it features an Android-based operating system, Wi-Fi connectivity, and intelligent voice-controlled song selection, making it ideal for karaoke, presentations, and events. With a robust wooden cabinet, built-in wheels, and a rechargeable lead-acid battery, this unit offers a complete audio-visual solution that is easy to transport and set up.
