

10-Inch Steel Basket Woofer

This 10-inch woofer features a steel basket for structural support. It has a 40oz magnet, foam edge paper cone, and a 2-inch voice coil with 4ohm impedance.

Product Overview

High-Performance Steel Basket Woofers

These 10-inch and 12-inch subwoofers are engineered for robust low-frequency reproduction in both automotive and home audio environments. Featuring durable foam-edge paper cones and high-strength steel baskets, they provide a reliable foundation for deep bass performance. With voice coils optimized for efficiency and power handling, these components are versatile solutions for professional audio system integration.

Technical Specifications

Model Specifications

Attribute	10-Inch Model	12-Inch Model
Magnet Weight	40 oz	50 oz
Max Power	500 W	800 W
Voice Coil	2 inch	2 inch (4-Layers)
Frequency Response	20Hz-1kHz	20Hz-1kHz
Sensitivity	91 dB	91 dB
Impedance	4 Ohm	4 Ohm

Construction

Materials & Design	Steel Basket, Foam Edge, Paper Cone
