

# 10-Inch Telescopic Oscillating Rechargeable Pedestal Fan

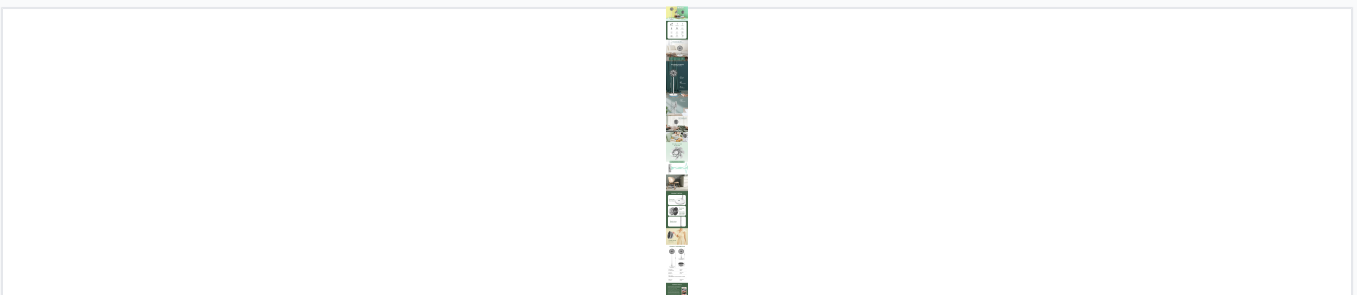

This 10-inch telescopic fan features an oscillating pedestal design for broad air circulation. Its rechargeable battery allows for cordless use in both indoor and outdoor environments.

## ADDITIONAL IMAGES

## Product Overview

A versatile and portable 10-inch cooling solution with telescopic height adjustment and wide-angle oscillation.

### Versatile Telescopic Cooling

This 10-inch oscillating pedestal fan offers a highly flexible design suitable for both desktop and floor use. Its telescopic structure allows for easy height adjustment, while the foldable frame ensures convenient storage and portability for home, office, or outdoor environments. Equipped with a high-capacity rechargeable lithium-ion battery system, this fan provides reliable, cordless operation for up to 10 hours of cooling.

## Technical Specifications

### Power Rating

**13.5 W**

Power Consumption

**12.6 V**

Input Voltage

### Fan Size

10 inches

## Battery & Runtime

Battery Configuration	3 x 18650 Lithium-ion batteries (2600mAh each)
Operation Time	3 - 10 hours
Charging Time	6 hours

## Features & Control

Rotation Range	<ul style="list-style-type: none"><li>• 90° horizontal oscillation</li><li>• 180° adjustable tilt</li></ul>
Speed Levels	9
Key Features	LED Display, Timer Function, Foldable Design, Portable Handle, Removable Front Shield

## Compliance

Certifications	CE • ROHS • EMC
