

10 Liter Plastic Liquid Storage Bucket

This 10-liter bucket is ideal for storing and transporting liquids such as water, urea, or oil. It features a robust handle for easy carrying and a screw-on cap for secure sealing.

Overview

The 10L capacity container features a rectangular design for space-efficient storage and a secure screw-cap to prevent leaks.

Versatile 10L Liquid Storage Solution

This 10-liter plastic bucket is engineered for the secure storage and transport of various liquids, including water, urea, and oil. Its durable construction and rectangular design ensure efficient space utilization and stability during handling. Equipped with a robust integrated handle and a secure screw-on cap, it provides a reliable solution for industrial, agricultural, and automotive applications.

Technical Specifications

Capacity

10 L

Volume

Material Durable Plastic

Appearance Translucent

Design Features

Closure System Blue screw-on cap

Handle Integrated sturdy carrying handle

Form Factor Rectangular for efficient stacking and storage

Applications

Target Industries

- Automotive maintenance
- Agricultural liquid transport
- Industrial chemical storage
- General household use

Compatible Liquids

Water, Urea, Oil, Chemicals
