

10-Ton Hydraulic Bottle Jack for Automotive and Industrial Use

This hydraulic bottle jack is designed for heavy-duty lifting applications with a 10-ton (20,000 lbs) capacity. It features durable steel construction, an adjustable heat-treated extension screw, and a wide base for enhanced stability.

Product Overview

Industrial-Grade Lifting Performance

This 10-ton hydraulic bottle jack is engineered for demanding automotive and industrial applications. Featuring a durable steel construction and a heat-treated extension screw, it provides reliable and adjustable lifting height for heavy loads. Its compact and stable design ensures portability and ease of use in confined maintenance environments.
