

# 10-Ton Portable Hydraulic Auto Body Repair Kit

This 10-ton portable hydraulic equipment set is designed for automotive body repair and frame straightening. The kit includes a hydraulic pump, ram, extension tubes, and various attachments for pushing, spreading, and pressing.

## Product Overview

### Professional Auto Body Repair Solution

This 10-ton portable hydraulic repair kit is an essential tool for automotive body shops and frame straightening tasks. Designed for versatility, the system includes a powerful hydraulic pump, ram, and a variety of extension tubes and attachments to facilitate precise pushing, spreading, and pressing. The entire set is housed in a durable blow-molded case, ensuring organized storage and easy transport between job sites.
