Overview

Versatile Material Transport

This 1000kg mini tracked dumper is designed as an all-rounder for transporting bulk materials across challenging terrain. Its compact, solid steel design allows for easy navigation through narrow spaces and difficult paths, making it an ideal tool for construction, landscaping, and agricultural applications. Featuring a manual tilt function and adjustable hopper, it offers reliable performance for demanding work environments.

Performance

Load Capacity	1000 kg
Diesel Power	8.0kw / 2200r/min
Travel Speed	1.2 - 6 km/h
Transmission	3F + 1R + Range selector

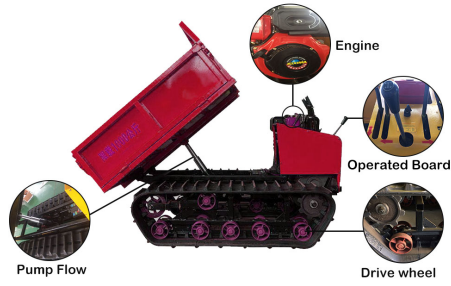

Dimensions

Hopper Dimensions (L x W x D)

Dimension	Value	Unit
Length	1300	mm
Width	960	mm
Depth	450	mm

Machine Weight	630 kg
Terrain Clearance	250 mm

Technical Features

Detailed view of the engine, operator controls, and drive system components.

Starter Method	Electric Starter
Track Width	280 mm
Key Features	Solid Steel Design, Manual Tilt, Adjustable Hopper, Tracked Drive
