

1000W Enclosure Air Conditioner

This 1000W enclosure air conditioner is designed for outdoor electrical cabinets and control units. It provides a reliable cooling solution to maintain optimal operating temperatures.

ADDITIONAL IMAGES

Product Overview

High-Efficiency Enclosure Cooling

This 1000W enclosure air conditioner is engineered to maintain optimal operating temperatures for sensitive electronic components within electrical cabinets. Designed for outdoor and industrial environments, it features precise temperature management to prevent overheating and condensation. With a compact form factor and robust construction, it ensures the reliability and longevity of critical infrastructure in telecommunications and manufacturing applications.

Performance Metrics

Rated Cooling Capacity

1000 W

Cooling Power

Heating Capacity

1000W (Selective)

Working Temperature

-20 to 55

Electrical Specifications

Rated Input Voltage	AC 110/220V
Rated Input Current	2.7 A
Rated Power Consumption	600 W

Physical Design

Dimensions (W x D x H)	400mm x 203mm x 750mm
Model Number	A1000LT_B

Key Features

Key Benefits

- Compact design for easy integration
- Digital controller for precise temperature management
- Energy-efficient operation
- Prevents overheating and condensation
- Suitable for outdoor cabinet control

Certifications & Quality

Quality Standards

ISO Verified • CE • UL • ILAC-MRA • CNAS

Applications

Target Applications	Telecommunications, Manufacturing, Data Centers, Electrical Enclosures, Outdoor Cabinets
