

1000W Portable Gasoline Generator

This portable gasoline generator outputs 1000W of power. It includes DC 12V and AC 220V outlets, an AVR system, and an analog voltmeter.

Product Overview

Professional Portable Power

This portable gasoline generator provides a reliable 1000W power output, making it an ideal solution for remote jobsites or emergency power needs. It features a robust protective cage and integrated safety systems, including an Automatic Voltage Regulator (AVR) for stable power delivery. Equipped with versatile outlet options and real-time voltage monitoring, this unit is designed for durability and ease of use in diverse professional environments.

Technical Specifications

Rated Power Output

1000 W

Rated Power

Output Ports

- AC 220V Outlet
- DC 12V Outlet

AVR System

Yes

Voltage Monitoring

Analog Voltmeter
