

1000W Portable Pure Sine Wave Inverter

This portable pure sine wave inverter delivers 1000W of continuous power, converting DC battery power into AC household power. It is ideal for powering laptops, fans, and other electronic devices on the go, and features a robust design and reliable performance.

Overview

Portable Pure Sine Wave Power Solution

This 1000W portable inverter efficiently converts DC battery power into clean, stable AC household power. Designed for versatility, it supports a wide range of global input and output voltages, making it suitable for various international applications. With a robust metal casing and comprehensive safety features, it provides reliable power for sensitive electronics during camping, travel, or emergency situations.

Performance Metrics

Power Output

1000 W

Continuous Power

2000 W

Peak Power

Technical Specifications

Waveform

Pure Sine Wave

Input Voltage

10.5-15V DC

Output Voltage Options

100V, 110V, 120V, 220V, 230V, 240V

Connectivity & Interface

Available Ports

- 1 x 12V Round Socket
- 1 x 5V/2.1A USB Port

Safety & Protection

Safety Features

- Reverse Polarity Protection
- Overload Protection
- Overheat Protection
- Output Short Circuit Protection
- Low Voltage Automatic Shutdown

Construction

Build Quality

Heavy metal case
