

100A Electrical Isolator Switch

This electrical isolator switch is designed for isolating circuits in industrial and commercial applications. It features robust construction and reliable operation for safe and efficient power distribution.

Overview

High-Performance Electrical Isolation

The 100A Electrical Isolator Switch is a robust, high-performance solution engineered for critical circuit isolation in industrial and commercial environments. Designed for reliability and safety, this switch ensures efficient power distribution and secure maintenance operations. It is fully compliant with industry standards and supports versatile voltage configurations to meet diverse electrical infrastructure needs.

Technical Specifications

Rated Current

100 A

Rated Current

Supported Voltages

- 230V AC
- 400V AC

Utilization Category

AC 22

Compliance & Standards

Certifications

CE
