

100cc Step-Through Motorcycle for Urban Commuting

This step-through motorcycle is designed for urban commuting and utility. It features a 100cc air-cooled engine, semi-automatic transmission, front basket, and rear rack.

Overview

Urban Commuting Utility

The 100cc step-through motorcycle is engineered specifically for efficient urban commuting and light utility tasks. Its compact design allows for easy navigation through congested traffic, while the semi-automatic transmission ensures user-friendly operation for riders of varying skill levels. Equipped with both front and rear cargo storage solutions, it serves as a practical, durable transport option for daily business or personal use.
