

100cc/125cc Alloy Wheel Gas Scooter

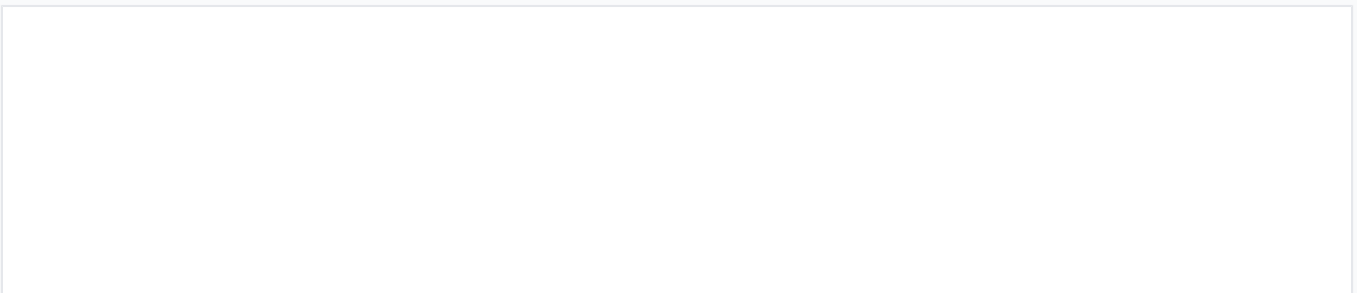

This gas scooter is equipped with alloy wheels and powered by a 100cc or 125cc engine. It features a dual pump front disc brake and high-quality tires.

ADDITIONAL IMAGES

Overview

The scooter features durable alloy wheels and a streamlined design optimized for fuel efficiency and urban handling.

Efficient Urban Commuting

This 110cc gas scooter is designed for reliable urban transportation, featuring a stylish headlight with high light transmission and a classic, easy-to-read indicator meter. It combines performance with safety through a dual-pump front disc brake system that significantly shortens braking distances. The vehicle is built for durability and comfort, equipped with anti-skid, wear-resistant tires and a high-temperature resistant mute muffler.
