

# 100mm Grinding Wheel for Metalworking

This grinding wheel is designed for stainless steel and metal applications. It has a 100mm diameter, 6mm thickness, and 16mm bore, with a maximum RPM of 15200.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Grinding Solution

This professional-grade grinding wheel is engineered for efficient material removal and precision finishing on stainless steel and various metal surfaces. Designed with durability in mind, it offers a sharp cutting performance and an extended service life for demanding industrial applications. The wheel is built to withstand high operational speeds, ensuring reliable and consistent results in metalworking environments.

## Technical Specifications

### Maximum RPM

**15200 RPM**  
Max Speed

Diameter	100 mm
Bore Size	16 mm
Operating Speed	80 m/s

## Compliance & Standards

Certifications	ISO 9001:2015
----------------	---------------

## Usage & Safety

### Compatible Materials

- Stainless Steel
- General Metals

### Safety Guidelines

- Use only for intended applications
- Keep out of reach of children
