Product Overview

Ultra-Compact 100W Power Solution

This 100W Universal Power Adapter features advanced GaN technology, delivering high-performance charging in the industry's smallest and lightest form factor. Designed for maximum versatility, it supports a wide array of fast-charging protocols including PD3.0 and QC3.0. With an energy efficiency rating of level VI and a conversion efficiency of up to 92%, it provides a reliable and eco-friendly charging experience for laptops, tablets, and smartphones.

Technical Specifications

Efficiency Performance

92 %

Conversion Efficiency

0.075 W

Standby Power

Input Voltage	100-240V AC 50-60Hz
Supported Protocols	PD3.0, QC3.0, QC2.0, Apple 5V/2.4A

Physical Attributes

Dimensions	39mm x 39mm x 28mm
Weight	50 g

Operational Environment

Working Temperature	0 - 40 °C
